Case Study 2

Steel Manufacturer | Federal + State Credit

Engineering efficiency. Building Value. Delivering long-term savings

INDUSTRY
Steel/Manufacturing

REVENUE
$60M

AGE
20 years (not QSB)

JURISDICTION
Federal + Arizona

Qualifying Activities

- **Developed** high-strength alloy processes; tested heat & compositions
- **Process engineering:** optimized rolling, casting, and automation
- **Material handling innovation:** new fixtures, molds, and inspection systems
- **Environmental efficiency:** waste heat recovery & emission reduction
- **Tooling optimization:** new die materials, coatings & equipment configs

Credit Result

Qualified R&D	**$2,000,000**
ASC Rate	**20%**
Payroll Tax Credit	**$185,000**
Income Tax Credit	**$420,000**
TOTAL CREDIT	**$605,000**

Strong R&D Today. Stronger results tomorrow
Strategic innovation creates measurable tax savings.
